Projects Summary

I have worked more than 40 projects with software development and implementation with following core responsibilities:

· To lead and manage the application team and development; maintaining the company policies, responsibilities, procedures and methods among the team members in order to enhance user experiences

· To write high quality code for new or existing software(s)/system(s) based on verified business requirements, technical specifications and designs in accordance with organization standards.

· To analyze, evaluate and validate the system program requirements by researching and consulting

· To develop software solution by adopting the software development lifecycle suitably, investing the problem areas and update the procedures wherever relevant.

· To prepare and maintain technical program, end user documents and Operational procedures.; documenting and demonstrating solutions by developing documentation, flowcharts, layouts, diagrams, charts, code comments and clear code.

· To involve in preparing proposals and strategies design activities like financial evaluation and costing of software development, purchase and upgrades, as an expert.

· To follow established testing guidelines, protocols and quality standards to ensure programs and applications meet specification by resolving the bugs and issues through proper testing, debugging, troubleshooting and diagnosing in applications programing language; researching and implementing new methodologies for effective testing, quality assurance and resolving faults.

· To identify the limitations and deficiencies in used technologies for existing systems and propose associated processes, procedures and methods.

SKALE – Loan Origination System	
Client	Bangladesh, Sri Lanka, Nepal – Several Banks
Environment	SharePoint App, AngularJs, Web API, ASP.NET MVC, Azure (App and SQL)
Responsibilities	Project lead, Solution Design, Planning, Development.
Description: SKALE, a complete loan origination system for banking and financial organization. ASP.NET MVC, AngularJs, WebApi, ADO.NET. Modules: Leads management, Credit proposal, Appraisal, Analysis and Approvals, Sanctions, Disbursement, Recovery with reports and dashboards. Azure DevOps for source control and project development task and spring planning, version control, build/release. (Team Size: 8)	

Digital Memo	
Client	Basic Bank Limited, National Bank Limited – Bangladesh
Environment	Web API, ASP.NET MVC, Angular, SharePoint, Azure (APP, SQL), Azure
Responsibilities	Project Lead, Solution Design, Planning, Development.
Description: A complete digital memo solution, preparation, letter generation with digital signature and dynamic workflow and approval process. (Team Size: 4)	

Automation - Banglalink Vlounge	
Client	Banglalink Digital Communication, Bangladesh: a subsidiary of the Dutch holding company VEON
Environment	Web API, ASP.NET MVC, Angular, SharePoint, Azure (APP, SQL), Azure
Responsibilities	Project Lead, Solution Design, Planning, Development.

Description: A complete solution for business process automation. This solution has automated more than 800 processes of Banglalink. Various dynamic options to automate upcoming processes as well. Processes like: IT Services, Travel Plan/Settlement, Online Document Approval, Intern Requisition, BTS, Compliance Management, Contract, Intern requisition, IT Access Control, Test and Special SIM Management, Access management etc. with features with Dynamic Approval matrix. (Team Size: 6)

Enadoc 365 and Intelligent Auto tagging	
Client	City Bank - Bangladesh
Environment	Web API, ASP.NET MVC, Azure (APP, SQL, Cognitive services), Azure DevOps
Responsibilities	Planning, .Net Development, Leading Project: Full Work.

Description: Develop AI app to scan and used AI cognitive services to scan handwritten text and identify image for intelligent tagging for search and finally transfer to DMS and core banking. (POC Project)

Pick me Capture	
Client	Sri Lanka
Environment	Web API, ASP.NET MVC, Azure (APP, SQL, Cognitive services), Azure DevOps
Responsibilities	Planning, .Net Development, Leading Project.

Description: Develop AI app to scan and used AI cognitive services to identify picture of Account Holder and identify image for intelligent verification of user with national ID as well as tagging for search and finally transfer to DMS and core banking.

H4F Reporting App	
Client	internal
Environment	Angular 7, ASP.NET Core 2.2, VS2017, TFS
Responsibilities	Designing, Planning, Development, Leading Project.

Description: Developed angular application for reporting.

Dflow Employee Exit	
Client	Mobitel – Sri Lanka
Environment	Angular, ASP.NET webapi, SharePoint App, Azure (App and SQL), Azure DevOps
Responsibilities	Project Lead, Solution Design, Development.

Description: Develop SharePoint App for automate the business process and Approval namely Employee Exit and Dynamic workflow with Admin Dashboard. Dynamic form based on permission. (Team Size: 3)

IS Asset Access- Dhiraagu	
Client	Dhivehi Raajjeyge Gulhun PLC - Maldives
Environment	Angular, ASP.NET Web API, Azure (App and SQL), Azure DevOps
Responsibilities	Project Lead, Designing, Planning, Development

Description: Develop SharePoint App for automate the business process and Approval namely IT Asset and User Access and Dynamic workflow with Admin Dashboard. (Team Size: 4)

Credit Card Automation - Shimanto

Client	Shimanto Bank - Bangladesh
Environment	AngularJs, Web API, ASP.NET MVC, Azure DevOps
Responsibilities	Project Lead, Designing, Planning, Development

Description: Develop process for Credit Card system: Proposal, Appraisals and Analysis with approval workflow. (Team Size: 4)

Profit Centre Operating Procedure

Client	Chevron - Bangladesh
Environment	Angular 8, ASP.NET Web API, Azure (App and SQL), Azure DevOps
Responsibilities	Designing, Planning, Development, Leading Project.

Description: Develop App for IT for Profit Centre Operating Procedure workflow with Admin Dashboard. Dynamic workflow based on permission. (Team Size: 3)

Performance Improvement Management System

Client	Chevron - Bangladesh
Environment	Angular 8, ASP.NET Web API, Azure (App and SQL), Azure DevOps
Responsibilities	Solution Design, Planning, Development, Leading Project.

Description: Develop SharePoint App for Performance Improvement Management System with Admin Dashboard. Dynamic workflow based on permission.

Distribution Network Portal

Client	Brac Bank - Bangladesh
Environment	SharePoint 2013, SharePoint Designer
Responsibilities	Lead Project

Description: Design and developer SharePoint for Distribution Network Department.

Process Automation-Dhaka Stock Exchange

Client	Dhaka Stock Exchange- Bangladesh
Environment	Angular, ASP.NET Web API, SharePoint, Azure (App and SQL), Azure DevOps
Responsibilities	Designing, Planning, Development

Description: Develop SharePoint App for automate the business process namely Gate Pass Request, Specification Request and Dynamic workflow with Admin Dashboard.

CSP Web Portal

Client	Tech One Global (Internal and Clients)
Environment	AngularJs, Web API, ASP.NET MVC, Azure (App and SQL), Azure DevOps
Responsibilities	Designing, Planning, Development, Full Work

Description: Microsoft Cloud Solution Provider Program (CSP) enables partners to directly manage their entire Microsoft cloud customer lifecycle. This project contain customer facing dashboard to update their information, know subscription and consumption of cloud services, usages and bills.

Restroogle	
Client	Noble Idea Solution
Environment	Angular, ASP.NET Core, SQL Server, Azure DevOps
Responsibilities	Solution Design, Planning, Development
Description: A complete restaurant management system for POS system. (Team Size: 2)	

Gate Pass Management O365(SharePoint App)	
Client	Apollo Hospital Dhaka, Bangladesh
Environment	ASP.NET, JavaScript, Jquery, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	Designing, SharePoint Development, Requirement gathering, Planning
Description: Gate pass management system through O365 SharePoint Online	

Leave Management System, O365 (SharePoint App)	
Client	CEAT AKKHAN, Bangladesh
Environment	ASP.NET, Azure, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, Designing, SharePoint Development, Requirement gathering, Planning, Software Architect
Description: Complete leave management system	

BOQ SharePoint App	
Client	Tech One Global, Bangladesh
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	Team Leading, Development
Description: Sales Bill of Quotation for Internal Sales Team	

Protocol Approval System, Isrepository System	
Client	I'CDDRB, Bangladesh
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, Designing, SharePoint Development, Requirement gathering, Intranet Portal Branding, Planning
Description: Research/protocol workflow and book repository	

My Idea	
Client	Banglalink (Telco), Bangladesh

Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	Designing, SharePoint Development, Requirement gathering, Intranet Portal Branding, Planning, .NET Development
Description: Innovative Idea system.	

Vendor Enlistment System	
Client	Banglalink (Telco), Bangladesh
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	Designing, SharePoint Development, Requirement gathering, Intranet Portal Branding, Planning, .NET Development
Description: Vendor evaluation process from external users to approval process through SharePoint	

SharePoint Bank Asia	
Client	Bank Asia, Bangladesh
Environment	SharePoint Technology, SharePoint Designer
Responsibilities	Team Lead, Requirement and Business Analysis, Design
Description: SharePoint Branding, Business Automation	

Dhaka Stock Exchange, SharePoint	
Client	Dhaka Stock Exchange, Bangladesh
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	Team Lead, Business Analyst, Design and Development
Description: SharePoint for Business Automation	

SharePoint Portal Branding	
Client	Banglalink (Telco), Bangladesh
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	Designing, SharePoint Development, Requirement gathering, Intranet Portal Branding, Planning
Description: SharePoint Branding and DMS	

SharePoint Online Portal Branding	
Client	Apollo Hospital Dhaka (Bangladesh), Brac EPL(Bangladesh), MIR Telecom (Bangladesh) and some more.
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	Designing, SharePoint Development, Requirement gathering, Intranet Portal Branding, Planning

Description: SharePoint Branding and DMS	

SharePoint Portal Branding and DMS	
Client	Brac Bank, Bangladesh
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	Designing, SharePoint Development, Requirement gathering, Intranet Portal Branding, Planning
Description: SharePoint Branding and DMS	

SharePoint Deployment, Branding, Info-Booth	
Client	Basundhara Group, Bangladesh
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description:	

Loan Automation System	
Client	Uttara Bank Limited, Bangladesh
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Credit Approval Workflow, workflow approval system for General Credit Approval and Dynamic request approval Document management system	

SharePoint Portal Branding and Deployment	
Client	Uttara Bank Limited, Bangladesh
Environment	SharePoint Technology, SharePoint Designer, SharePoint 2013
Responsibilities	SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Design graphical portal and deploy SharePoint OOFB features	

SharePoint Portal Branding and Deployment	
Client	Bhutan Development Bank Limited, Bhutan
Environment	SharePoint Technology, SharePoint Designer, SharePoint 2013
Responsibilities	SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Design graphical portal and deploy SharePoint OOFB features	

SharePoint Migration	
Client	Bank Of Kathmandu, Nepal
Environment	SharePoint 2013
Responsibilities	Planning and Migration
Description: Migrate SharePoint 2013 foundation to SharePoint 2013 Standard.	

ENTERPRISE CREDIT APPROVAL SYSTEM (DMS)	
Client	Bank Of Kathmandu, Nepal
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Workflow development
Description: Credit Automation system and document management system.	

ENTERPRISE DMS TREASURY APPROVAL SYSTEM	
Client	Bank Of Kathmandu, Nepal
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Credit Automation system and document management system.	

ENTERPRISE DMS TRAVEL/SATTLEMENT APPROVAL SYSTEM	
Client	Bank Of Kathmandu, Nepal
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Credit Automation system and document management system.	

ENTERPRISE DMS CORPORATE COMMUNICATION APPROVAL SYSTEM	
Client	Bank Of Kathmandu, Nepal
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Credit Automation system and document management system.	

Memo Approval SYSTEM	
Client	Siddhartha Bank Limited, Nepal
Environment	ASP.NET, SharePoint Technology, SharePoint Designer , VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Static and Dynamic Memo Approval System, Process Automation, Dynamic request approval and Document management system. Intranet Portal Branding	

Credit Approval SYSTEM – Enterprise DMS	
Client	Janata Bank, Nepal
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Credit Approval Workflow, workflow approval system for General Credit Approval and Dynamic request approval Document management system	

Credit Approval SYSTEM – Enterprise DMS	
Client	Siddhartha Bank Limited, Nepal
Environment	ASP.NET, SharePoint Technology, SharePoint Designer, VS2013
Responsibilities	.NET Coding, SharePoint Designing, SharePoint Development, Deployment, Requirement gathering, Intranet Portal Branding
Description: Credit Approval Workflow, workflow approval system for General Credit Approval and Dynamic request approval Document management system	

Document Management System	
Client	Norp Knit industries, Bangladesh
Environment	SharePoint Technology, SharePoint Designer
Responsibilities	SharePoint Designing (O365), SharePoint Online Development and Managing Permission
Description: Document Management System through SharePoint Online, Fabric Status Automation	

O365 Branding	
Client	Ministry of Finance, Nepal
Environment	SharePoint Technology, SharePoint Designer
Responsibilities	SharePoint Designing (O365), SharePoint Online Development and Managing Permission

Description: O365 Branding	

E-Mobi Order	
Environment	ASP.NET, AngularJs, Javascript, Jquery, AJAX, .NET Reporting, Mobile
Responsibilities	Coding, Designing, Planning, Reporting
Description: Online Food ordering for single Restaurant.	

Hungry4food	
Environment	ASP.NET, Javascript, Jquery, AJAX, .NET Reporting, VS2013, Mobile responsive, AngularJs
Responsibilities	Coding, Designing, Planning, Reporting, Leading Project
Description: A complete Online food portal for restaurants and franchise business.	

NicePOS Hospitality Software	
Client	Tanduri Fusion (Omaha, NE), Tandoor Indian Cuisine (Lincoln, NE), Pizza Bravo Plus (Baltimore, MD), The Little King (Omaha NE), Curry & Kabob (Columbia MD), Pizza Connection (Cockeysville MD), Universal Pizza (Baltimore MD), Wings n Pie (Baltimore MD), Wings Things N More (Parkville MD), Giorgio's (Baltimore MD) and more
Environment	.NET, .NET Reporting, Desktop Application
Responsibilities	Coding, Designing, Planning, Reporting
Description: A Complete Software for Dinning and Pizza Delivery over all management	

NicePOS Retails	
Environment	.NET, .NET Reporting, Desktop Application
Responsibilities	Coding, Designing, Planning, Reporting
Description: A Complete Software for Retails & Grocery management	

NicePOS Online	
Client	The Little King 114 and 90 (Omaha NE), Pizza Bravo Plus (Baltimore MD), Tanduri Fusion (Omaha MD), Tandoor Indian Cuisine (Lincoln NE), Wings Things N More
Environment	Asp.NET, .NET Reporting, JQuery, AJAX, ADO.NET, LINQ
Responsibilities	Coding, Designing, Planning, Database Design- Full Work
Description: A Complete Web Ordering, Fully Configurable and Hospitality Management. Web application for dining, Pizza delivery, Sandwich & Subs and may more, Fully configurable	

NicePOS Online Order Printer	
Environment	.NET Desktop Application
Description: Desktop Application, automatically print web order in printer full configurable	

NicePOS Integrated	

Client	The Little King 114 and 90 (Omaha NE), Pizza Bravo Plus (Baltimore MD), Tanduri Fusion (Omaha MD), Tandoor Indian Cuisine (Lincoln NE), Wings Things N More
Environment	.NET, .NET Reporting, Desktop Application
Responsibilities	Coding, Designing, Planning, Database Design- Full Work

Description: A complete NicePOS online and NicePOS Hospitality desktop integrated application

Noble Idea Solution	
Environment	ASP.NET Web forms, VS2010
Database	Microsoft Access Database
Responsibilities	Full Work

Description: Noble Idea Solution company website with several features like dynamic contents, projects and services, pos hardware ordering and payment system with dynamic options.

Website Design	
Link	http://jbntradelink.com, www.restauranthimalayan.com, www.goromalittleitaly.com, http://wingsthingsandmore.com, http://nepalIslamicculturalfoundation.com , http://halalnepalservice.org, etc
Environment	ASP.NET webforms, VS2010
Responsibilities	Full work
Description	These websites may be depreciated. Developed in 2011-2012.
